

Composition

Ramadan

We like Ramadan very much. Muslims fast in Ramadan. They don't eat or drink in the day. They pray Taraweeh in the mosque and give zakat. After Ramadan there is Eid Al Fitr.

Ramadan

Ramadan starts tomorrow. Everyone is excited .All Muslims must fast in Ramadan. It means we don't eat or drink in the day .We eat and drink before dawn and after sunset. We give zakat and read Quran. We go to the mosque and pray Taraweeh. There`s Eid Al fitr after Ramadan.

Ramadan

All Muslims like Ramadan . They also like Eid Al Fiter. In Ramadan, they fast all the day until sunset. They eat together . In the evening, they go to the mosque to pray taraweeh. In Eid Al Fiter ,children have money and presents from their parents and grandparents and go out with their friends and cousins.

The Holy Quran

The Holy Quran is the word of Allah . Was sent to our prophet Muhammad . I spend my time by reading the Quran . I hope to learn Quran by heart.

Hala February

Hala February people celebrated in the National Day Of Kuwait, At the date of February 26 and 25, people to the parks to enjoy the festivals of national and all the people go to the march in all places in the State of Kuwait. And the children were beautiful clothes as Kuwait flag color.

Hala February

Hala February is a great festival for shopping in Kuwait. People come to Kuwait from different places in the world. In this festival, people enjoy buying many kinds of things. There are lots of people in the markets and in the streets. At night, you can go to different parties where you can listen to songs or watch dances from all over the world.

Kuwait

Kuwait is a wonderful country. It lies on the Arabian gulf. It has along beautiful beach. It's very hot in summer. It's cold in winter. The capital is Kuwait city. You can enjoy visiting Kuwait towers and the entertainment city.

Kuwait

Kuwait is a beautiful country. Kuwait City is big, modern and clean. There is a lot to see in Kuwait City. There are the Liberation Tower, The Grand Mosque, The Kuwait Towers and the Dhow Harbour. You can see the Scientific Center in Salmiya. There is the Entertainment City in Doha. There is a lot to do there. We are lucky to live in Kuwait.

Failaka

Ali and Hamad will go to Failaka tomorrow. They will go by car to the harbour. Then they will go by boat. Boats are slow so, they can see interesting things. They will have a picnic under a big tree. It will be a happy day.

Pearl diver

Majed is a good pearl diver. He goes on a boat for eight days. He is a brave man. In the pearl diving festival divers arrive home. They have got lovely pearls. Women give them flowers.

The Farm

Amal and Nawal went to the farm yesterday. They saw the cows and the horses. Then they had a bike race. Nawal was faster than Amal. She won the race. The girls had lunch at the farm. They had fun.

The desert

Every spring we go to the desert. We take food and water with us. We don't waste water because there isn't a lot of water in the desert. We don't leave rubbish in the desert. We keep the desert clean. The desert is beautiful at night.

Healthy food

This morning Sara and Jassim looked at the computer. They learned about healthy food and drinks. Fruits, vegetables and salad are healthy. Fish, meat and rice are healthy too. Sara and Jassim want to be healthy, so they will eat healthy food.

About Me

My name is Mona. I'm nine years old. This is my brother Khaled. He is eight years old. We live in Kuwait. Today, we went to the beach with my family. My family likes going to the beach every Friday. I was very happy.

The Zoo

Last week Laila went to the zoo with her cousin. They saw lots of animals. Laila liked the monkeys but her cousin liked the elephants. They ate cakes and drank some juice. The zookeeper closed the zoo at six o'clock. They went home very pleased.

Favorite Sport

My name is Dana and I like running. My sister, Nora likes playing tennis, it's her favorite sport. My father likes swimming after work. My brother, Salim likes going to the gym to do exercises. My mother likes walking on the beach, she walks in the morning.

The Planetarium

Email

From: Hamad

To: Ali

Last Tuesday, I went to the Planetarium with my father. The Planetarium is a round building. At the Planetarium, I learnt about the planets, the moon and the stars. I was very happy. I thanked my father. We had a nice time at the planetarium.

The Planetarium

Yesterday, Ahlam went with her class in a visit to Al-Ujairy planetarium. It was a big and round building. They learned a lot of things there about planets, the moon, the sun, and the stars in the sky. The science teacher asked them many questions about the sun and the Earth. He told them that the sun is a big star. It's very hot near the sun. The Earth goes around the sun. We need the sun for light and heat.

The moon

The moon is beautiful planet. It is bright at night in the dark sky. It is useful for Muslims to fasten Ramadan by seeing the moon. Some scientists think that there's a life in the moon but I don't think

The moon

The moon is a quiet place. It is a big ball of rock. The moon goes around the Earth. In 1972, the spacemen walked on the moon. They took lots of photos. They left their footprints on the moon. Because there isn't any wind on the moon, the footprints are still there today.

The moon

The moon goes around the Earth. It takes one month to go around the Earth. The Earth is four times larger than the moon. The moon is a land with rocks and dust. It has no air around it. It is very cold at night and very hot in the day. The sky is dark all the time on the moon. The moon is also silent. There is no wind, no rain or any other type of weather on it. Neil Armstrong was the first man to walk on the moon.

Trees

Trees are good for people, animals and birds. Birds and animals need trees for their homes. People can sit under trees to stay cool. It is bad to cut down lots of trees. People must look after trees because they make the Earth a healthy place.

Trees

Last week, we learned about planting trees. Trees need water, sunshine and good soil to grow tall and strong. We need trees for food and shade from the sun. Animals and birds need trees for their home. We shouldn't cut down trees because they are important to keep the Earth a healthy place . So, today we are going to the school garden to plant some flowers. We are very excited.

Flowers

Flowers are wonderful plants. We can see them in the gardens and flowers shops. They need water, air, and sunshine to grow. There are many colours of flowers: red, yellow, pink, purple, and white. When we want to give a nice present to people we love or someone who is ill, you can give them some flowers. We should look after flowers and never cut down them from the gardens.

Holiday

Last summer, we spent our holiday in Oman. We went there by plane. We stayed in a nice hotel by the sea. Oman is a nice country. There are many places to visit there. You can visit Muscat which is the capital of Oman and it's a beautiful city. People there are very kind. They are famous for making rugs. They make rugs from the goat's hair. In my last day in Oman I went shopping and I bought nice rugs for my grandparents to put them in their house.

The Flag

Every country has got its own flag. The flag is a symbol of the country. The Kuwaiti flag is very smart. It has got green, white, and red stripes. It has got a black shape, too. Kuwaiti people are proud of their flag. They carry it when they celebrate the National Day. The National Day is on 25th of February. They pray to Allah to keep their country safe and their flag high in the sky because it is the symbol of their country.

The race

Last Friday, Ahmed and Ali went to the race track in Kuwait City. They watched a car race. The winner was wearing a blue jacket. Ahmed asked him, "What do you usually do before the race?" "I usually have a small breakfast. Sometimes, I drink fruit juice." The winner answered. Ali said, "I want to be a good driver."

Arab inventions

Arab sailors used the first compasses in the 9th century. When they had a compass they travelled to many countries all over the world. They travelled to buy and sell things. A compass has a needle. The needle points to the north which helps you to find the other directions. How great our grandfathers were!

The inventions

Our world today is different from our world ten years ago. The new inventions have made life easier and better. In the past, people used camels and horses to go from one place to another. Some people travelled by ships and even on foot. Today, planes fly across the world in a very short time. They have made the world very small. Children's games have changed too. Now, they play computer games and with I Pads. We are blessed with those inventions.

Sport

Sport is very important for all people .Everyone should do sport. Walking is my favourite sport. I usually go walking with my father every day. We should stretch before walking .We walk in the garden near my house. We should take water with us. We never walk in the middle of the day because it's very hot. We wear comfortable shoes. I sometimes see my friends in the garden. They like doing sport too. It makes our muscles and hearts strong.

Kuwait airport

Kuwait airport is a very wonderful building .It's a modern building with shops. There is a new shopping Centre. The airport looks like a big plane white. Some people go at the weekend. They can have a meal in a restaurant. You can go shopping there. It's in the south of Kuwait City.

Care of our teeth

We should take care of our teeth because they are so important. They help us with eating and speaking. If we brush them twice a day, they will be healthy and strong. We should drink milk and eat healthy food like fruit and vegetables. Dentists tell us not to have fizzy drinks or too many sweets. They are very bad for our teeth. If you drink a lot of fizzy drinks and eat too many sweets, you will get toothache and you may need fillings.

Teeth

Dana likes to keep her teeth healthy. She always brushes her teeth and her gums twice a day. She visits the dentist every six months. The dentist told her how to have good teeth. She eats lots of fruits and vegetables. She doesn't eat too many sweets. She doesn't drink lots of fizzy drinks. Dana is very clever. She has strong healthy teeth. If she doesn't look after her teeth, she will get toothache and she might need fillings.

Muslim scientist

Al-Bayruni is a famous Muslim scientist. He was born in 973. he learned the Quran when he was ten. He studied Maths , space ,the sun and the moon. He wrote many books . Ibn Sina is also a famous Muslim scientist. He was born in 980. He studied Maths , space , the sin and the moon . He studied medicine when he was thirteen years old and was a doctor when he was only sixteen. He wrote the most famous book about medicine in the world; " al Qanoun".
