Life in Kuwait in the past

To: Ahmed

From: Ali

Subject: Life in Kuwait in the past

Dear Ahmed,

Thanks a lot for your last email. I hope you are in a good health. I'm telling you about life in Kuwait in the past. People used to live in a small country. Our grandparents were pearl divers. Dhows brought water from Shatt Al Arab. Fishing and pearling were the main jobs. Today there are annual festivals to revive these past traditions. Old Kuwaitis travelled to India to bring wood and spices. They worked very hard to gain wealth.

From Ali

Read the following passage, then answer the questions below:

Oceans and seas cover more than half the Earth's surface. Many different plants and creatures live in the ocean. Coral reefs grow near the coasts in tropical oceans. Tiny creatures build the coral reefs in beautiful shapes and colours. Many different kinds of fish and other ocean creatures make their homes in the reefs. There are high mountains and deep valleys under the ocean. The largest range of mountains in the world is under the Atlantic Ocean. The deepest part of the ocean is the Mariana Trench in the Pacific Ocean. It is eleven kilometres deep. Jellyfish float gently near the surface of the ocean. Rays and other flat fish live on the bottom of the ocean. They swim lazily along the ocean bed. Octopuses live in holes in the rocks or in wrecks on the bed of the ocean. Whales and dolphins must come to the surface of the ocean to breathe. The blue whale can stay under water for fifty minutes. life – space – different / travel – shuttle – live – work – station / trained – experienced / special – equipment / dried food – straw – drink / zero gravity – straps – float / special suits / outside – white / stay – away – Earth – several months

plan

The Astronaut's Life in Space

It's no doubt that life in space is completely different from life on Earth. Astronauts travel by shuttles. They live & work in a space station. They are well trained & experienced. They use special equipment. Also they eat dried food and use a straw to drink. The zero gravity makes them use straps because they float on air. They wear special suits. They stay away from Earth several months.

Reading Comprehension

Read the following passage, then answer the questions below:

It was a hot summer night. My family were all asleep except me. I was enjoying reading a story about a man who became very rich and famous after a lot of hard work. Suddenly, I heard a noise coming from the kitchen. I immediately thought it was a thief. I got up quickly and walked quietly to the kitchen door. It was my little daughter Sara. She was very thirsty. She was looking for a bottle of water in the fridge.

Luckily, I was close to her when she lifted the bottle to her mouth and drank a little. She cried in a choked voice. I looked at the bottle and was horrified to find that it contained a cleaning chemical. I, at once, put my index finger into her mouth and made her vomit. Then, I called the doctor and told him about what had happened and what I had done. He told me not to worry and that she would be alright.

Since that time, the poor little girl was always careful when she wanted to drink anything from a bottle. I advised my wife to keep all the chemicals and medicines away from children.
