Reading Comprehension & Summary making (200 marks)

Read the following passage, then answer the questions below:

Time has changed. In this modern era, women are taking a positive role in society. They are seen at par with men and because of liberalization, women have the rights to vote and say. They are becoming more independent and are very **competitive** even in the corporate world.

As we look around, we can see that women are now boldly involved in politics. Through their involvement in politics, women have proven that they are equally capable as men to lead. They are able to shoulder responsibilities and heavy matters concern in the world issues.

Next, as we observe around, there are also women involved in business. They have proven to rule the business world and build an empire with ripple effects. Some venture into cottage industries like making handicrafts and cookies while there are others who are able to lead an empire in business industry, marketing and insurance. These women have the potential, qualifications and expertise to mark a change in their lives. With the influence of the mass media are becoming very bold, **brave**, adventurous, capable and responsible. As such, men are now able to accept women into the workforce and take them as **their** equals.

Education has played a significant role towards the welfare of women. Education has enabled women to be knowledgeable and skillful to face the challenges in life. Women are considered the weaker gender, have more feminine features and motherly instincts like patience, love, care and understanding. Therefore, they are good educators in molding the future leaders of tomorrow. Moreover, in any tertiary level of education, women play a main role. In fact, women are good role models for future mothers.

Most women today have more than a role. They are mothers, wives and breadwinners. They are on the move all the time. As mothers, women know their children's needs. As mothers have their own natural instincts, they are able to care for their children better. **They** teach, train and guide the lives of their innocent children to learn and adapt to the challenges in life.

Reading Comprehension & Summary Making (200 marks)

Read the following passage, then answer the questions below:

The organs and tissues of the body are made up of tiny building blocks called cells. These cells are constantly being replaced. Under normal circumstances, the cells divide in an orderly and controlled manner. If for some reason the process gets out of control and continue to divide, they will develop into a lump called a tumor.

A malignant tumor consists of cells that have the ability to spread beyond the original area. If left untreated, it may spread and destroy the surrounding tissue. Cancer is the name given to a malignant tumor. Sometimes cells break away from the primary cancer and spread to other organs in the body through the lymphatic system.

Today, cancer is the leading cause of deaths all over the world. Do you know that cancer is preventable ? The first step in cancer prevention is learning what causes cancer and what the risk factors are.

According to the National Cancer Council; smoking is responsible for 87% of cases of lung cancer. However, smoking not reduces the chances of you becoming obese, which is actually a major cause for many cancers. Genetics can play a big role in cancer development. When cancer is genetic, a mutated gene has been passed down. However, it does not mean you will develop it but only have a greater chance of developing it. The environment you are in can cause cancer. Exposure to asbestos for example, is bad for you. Studies have shown that people who are exposed to high amount of benzene, a chemical found in smoking and polluted air, are also at risk for cancer Skin cancer is caused by exposure to the ultra-violet (UV) rays of the sun. Sunburn or tan is actually the result of cell damage caused by the sun.

Skin cancer is preventable. Wearing sunscreen when outdoors and staying out of the sun between the hours of 10 am and 2 pm, when the sun's rays are strongest are your best defense.
