[predict /erupt / shake / killer wave/ storm/ harmful / death / damage]

Topic plan

--

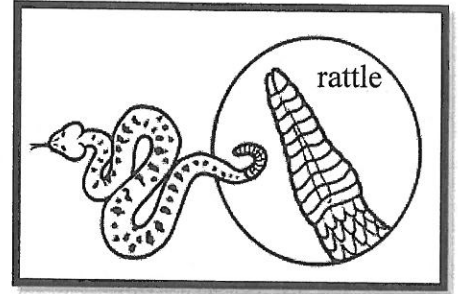

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

_____ (5) _____

VI. Reading Comprehension:(20 marks)

Read the following passage, then do as required below: (230 words)

Rattlesnakes are the most feared of snakes. This fear is well deserved because, though most snakes are harmless, rattle snakes are poisonous. Some are large and some are small, and they shake the end of their tail to make a rattle sound.

There are different types of rattlesnakes. The diamondback rattlesnake is easily recognized by the diamond shapes on its back. It is the fattest of all poisonous snakes, but not the longest. Other smaller rattlesnakes are the pygmy rattlesnake and the timber rattler.

It is believed that a rattlesnake's age is shown by the number of lines on its rattle. But that is not true because when the lines on the snake's rattle reach ten, a part of it falls off so a new part will grow. Rattlesnakes live in holes in the ground. Rattlesnakes feed on mice, rats, small birds and other small animals. Rattlesnakes use their rattle to warn others or to avoid being stepped on. Unlike other snakes, rattlesnakes give birth to live babies and do not lay eggs.

Rattlesnakes rarely bite unless they are feeling afraid or threatened. a rattlesnake's bite is life threatening. A human being can die 6 to 48 hours after a bite so the best thing to do is to rush to the nearest hospital to get treatment.

A) Choose the correct answer from a,b,c and d: (4x2½=10m)

1. The most suitable title for this passage could be.....

- | | |
|-----------------------------|----------------------|
| a) Living with Snakes | b) How Animals Adapt |
| <u>c) A Dangerous Snake</u> | d) Baby Snakes |

- | | |
|------------------------|------------------|
| a) <u>rattlesnakes</u> | b) small birds |
| c) mice | d) small animals |

3. The word (rush) in the last paragraph means.....

- | | |
|-----------------|-----------------------|
| a) to slow down | <u>b) to hurry up</u> |
| c) to bite | d) to stop |

4. The main idea of the 2nd paragraph is.....

- | | |
|---------------------------------|---------------------------------|
| a) rattlesnakes' favourite food | b) how long a rattlesnake lives |
| c) how a rattlesnake looks like | <u>d) kinds of rattlesnakes</u> |

B) Answer the following questions:(4x2½=10m)

5. Why are rattlesnakes dangerous?

Because they are poisonous.

6. What do rattlesnakes feed on?

They feed on mice, rats, small birds and other small animals

7. When do rattlesnakes bite?

When they feel afraid or get threatened

8. Where do rattlesnakes live?

They live in holes in the ground.

Good Luck!
