تابع امتحان نهاية الفترة الدراسية الأولى للصف الثامن اللغة الانجليزية للعام الدراسي 2016-2017- الصفحة رقم (4)

Write your topic here.(13 marks)

**6-Reading Comprehension (20marks)**

**Read the following passage then answer the questions below:**

With the birth of big cities and overpopulation comes one of the most serious problems which is how to get rid of their wastes. Some people believe that if it is not solved quickly these cities will eventually bury themselves in their own rubbish. They support their argument by stating that in 1985 Mexico City produced 6000 more tons which are too difficult to be collected. The worries about land pollution, **shortage** of natural resources, and lack of energy specially oil and high costs of raw materials all need one solution: recycling. Recyclable waste falls into seven basic groups: paper, glass, plastics, metals, rags, bones and organic matter.

Among the many advantages of recycling are: saving valuable natural resources preventing land pollution, saving manufactures' money and creating a lot of jobs .To make recycling process successful , it needs the support of government by supplying areas for dumping, storing and recycling and to launch campaigns to persuade the public to co-operate. It needs experts to find suitable people or companies to recycle these materials and use **them** in industry.

**( A ) Choose the correct answer from a,b,c and d : ( 4X 2,5= 10Marks )**

23- The best title for this passage is .....

- a- The Natural Resources
- c- Big cities

- b- Recycling waste
- d- Mexico in 1985

24- The word " **shortage** "in line five means.....

- a- a lot of
- c- saving

- b- storing
- d- lack of

25 - The underlined pronoun **them** in the last line refers to.....

- a- materials
- c-needs

- b- campaigns
- d- areas

26- According to the passage, which of the following is not a product of recycling?

- a- paper
- c- oil

- b- plastic
- d-metal

**(B) Answer the following questions ( 4X 2,5= 10Marks )**

27-Mention two of the advantages of recycling.

**a-Saving valuable natural resources.**

**b-Preventing land pollution.**

28- How can we solve the problem of getting rid of waste ?

**By recycling materials.**

29-What are the materials that can be recycled?

**They are paper, glass, plastics, metals, rags, bones and organic matter.**

30- How can government make the recycling process successful?

**By supplying areas for dumping, storing and recycling and to launch campaigns to persuade the public to co-operate.**
