* Read the following passage carefully, and then answer the questions below

Many animals live in cities. In some cities, you can see birds, insects, cats and mice every day. But sometimes it is dangerous when big animals come into cities to find food.

In Cape Town in South Africa monkeys come into the city when they are hungry. They go into gardens and eat fruit and vegetables from trees. They even go into houses and take food from cupboards and fridges! Monkeys are wild animals and they can scare people.

But the city can be dangerous for monkeys too. Sometimes, cars and buses kill monkeys in accidents. Human food is very bad for the monkeys' teeth because it has a lot of sugar. Now, there is a group of people called "Monkey Monitors" working in Cape Town. Their job is to find monkeys in the city and return them to the countryside.

In Moscow in Russia, there are 35,000 dogs. They live in parks, old houses, markets, and train stations. Some dogs live in groups and others live alone. Many people in Moscow like to help the dogs. They give them food and make small houses for them in their gardens. This helps the dogs in winter, when there is a lot of snow and ice. Other people do not like the dogs at all and they want the police to stop them entering the city.
