Reading Comprehension

Read the following passage and then do the tasks below:

Giraffes are one of the world's tallest mammals. **They** are known for their long necks, long legs, and spotted bodies. Giraffes have small horns at the top of their heads that grow to be about 5 inches. These knobs are used to protect from an enemy.

Male giraffes are taller than female giraffes and can stand nearly 19 feet tall. Most giraffes can live up to 25 years of age in the wild. They like to **roam** around in the savannas of Africa. African savannas are mainly dry and are covered with grass. With the giraffe's neck being so long, they are able to eat leaves from tall acacia trees.
